

New NF and NQ Panelboard Features

Square D™ by Schneider Electric is the most trusted brand in panelboards
Now with more best-in-class capabilities

What's New?

- 800A main circuit breakers NF panelboards
- 600A sub-feed circuit breakers for NF and NQ panelboards
- NQ and NF Condo Riser Neutral Assemblies with:
 - (36) #14 - 2/0 AWG terminals
 - (36) #14 - #4 AWG terminals
 - (4) 1/0 - 750 kcmil line lugs
- 200A 2P QO™ branch circuit breakers for 400A and 600A single phase NQ panelboards
- AWG #14-2/0 Add-on Lugs to increase neutral space for 80-100A NQ branch circuit breakers

Coming Soon

- 600A max. Main or Sub-feed circuit breakers thru stock for RTI* NF and NQ interiors
- Vented NEMA 3R enclosures for NF and NQ panelboards with 600A max. Main and Sub-feed circuit breakers and other options
- Oversize NF & NQ 400A & 600A Neutral Assemblies with 2 or more AWG 1/0 - 750 kcmil lugs

*RTI = Ready to Install (Available Thru Stock)

Advantages

The only final distribution panelboards with:

- 800A MB to 65kA @ 480Y/277 Vac
- 600A MB to 100kA @ 480Y/277 Vac thru Stock
- 600A Sub-feed breakers thru Stock

Benefits

- Serve outdoor applications needing main breakers or sub-feed breakers up to 600A
- Accept oversized incoming cables to minimize voltage drop
- Expand capacity to serve 70A to 100A loads in final distribution panelboards
 - Order up to (36) 100A breakers in NF and NQ
 - Add up to (12) 100A breakers to RTI NQ
- Configure single phase NQ panelboards with up to (4) 200A two pole branch breakers
