

# Insulated Wire Stripper and Cutter

This compact, lightweight wire-stripping, cutting tool cuts, strips, loops and gauges 10-18 AWG solid wire. Dual layer orange-over-white insulation protects against electric shock. Exceeds IEC 60900 and ASTM F1505 standards for insulated tools, and are clearly marked with the official 1000-volt rating symbol. Hardened spring steel with precision-ground stripping holes for easy removal of insulation.

## Specifications

|                  |                                                 |                   |                                                         |
|------------------|-------------------------------------------------|-------------------|---------------------------------------------------------|
| Application:     | Cuts, Strips, Loops and Gauges 10-18 Solid Wire | Special Features: | Compact and Lightweight, Spring Loaded For Self Opening |
| Material:        | Steel                                           | Insulated:        | Yes                                                     |
| Strips and Cuts: | 10-18 AWG Solid                                 | Standard:         | IEC 60900 and ASTM F1505                                |
| Overall Length:  | 7" (17.8 cm)                                    | Handle Color:     | Orange                                                  |
| Handle Finish:   | 2-Layer Insulation                              | Weight:           | 9.6 oz (272 g)                                          |
