

HALO

IMPORTANT SAFETY INSTRUCTIONS

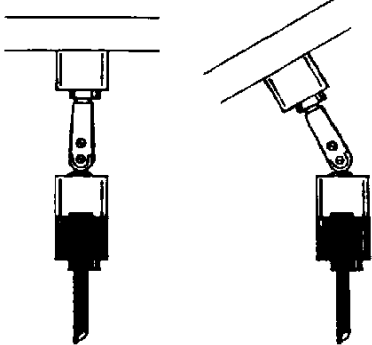

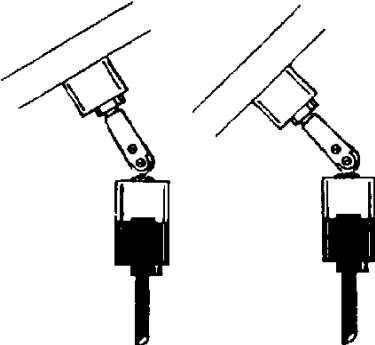

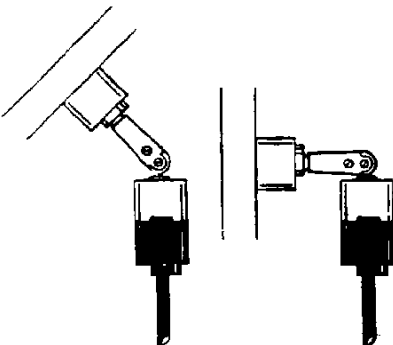

INSTALLATION OF L-917 SLOPE ADAPTER

NOTE: For use with HALO TRAC SYSTEM L-610, L-640, L-650 & L-1600 SERIES ONLY

OR: HALO ADAPTERS L-963, L-967, L-968, L-1973 & L-2001 ONLY

OR: HALO EXTENSION WANDS L-918, L-936 & L-948 ONLY

THE L-917 ALLOWS THE USE OF HALO EXTENSION WANDS WHERE TRAC IS MOUNTED ON A SLOPED CEILING. THE FOLLOWING WEIGHT LIMITATIONS SHOULD BE OBSERVED.

		
TRAC FROM HORIZONTAL TO 30°. USE LAMPHOLDER NOT MORE THAN 10 POUNDS.	TRAC FROM 30° TO 45°. USE LAMPHOLDER NOT MORE THAN 8 POUNDS.	TRAC FROM 45° TO VERTICAL — USE LAMPHOLDER NOT MORE THAN 5 POUNDS.

NOTE: The trac itself may require reinforcing if multiple fixtures are used. To reinforce the trac, drill additional holes in trac and fasten with low profile connectors that will not interfere with the Slope Adapter or other lampholders.

CAUTION: Ceiling and wall material may require special precautions to support the total weight.
