

Tackle Any Job

It takes the right tools to tackle a job, which is why Honeywell Cable is expanding its RoHS compliant CCTV coax product line to provide you with even more options for your security needs. In addition to our standard CCTV coax, we now carry versions that are ideal for short run lengths while continuing to deliver the reliability and performance you have come to expect.

Whether your application requires longer runs, a more economical CCTV cable, or you need to move onto the next job more quickly by pulling more cables per conduit, we have solutions to meet all of your cable requirements.

For Use in High Density Cameras and Shorter CCTV Run Lengths

Reduced outer diameter for improved fill in conduit and raceway (typical run length up to 375 feet)

Part #	Description
5020	Mini 24AWG SOL BC 95% BC Braid 75 Ohm Coax CL2
5022	Mini 24AWG SOL BC 95% BC Braid 75 Ohm Coax + 20/2 CL2

For Use in Short CCTV Run Lengths (typical run length up to 600 feet)

Part #	Description
6501	RG59/U SOL BC 95% CCA Braid CL2
6508	RG59/U SOL BC 95% CCA Braid+ 18/2 CM

NEW!

Still have questions on which CCTV cable to use? Call your Inside Sales Representative at 800-222-0060.

For Use in Intermediate CCTV Run Lengths (typical run length up to 750 feet)

Part #	Description
5001	RG59/U SOL BC 95% BC Braid CL2 with WaveFLEX™
5009	RG59/U SOL BC 95% BC Braid + 18/2 OAJ CL2
5013	RG59/U SOL BC 95% BC Braid + 18/2 CL2 with WaveFLEX™
5301	RG59/U SOL BC 95% BC Braid CL2R/FT4
5351	RG59/U SOL BC 95% BC Braid CL2P/FT6
5355	RG59/U SOL BC 95% BC Braid + 18/2 CL2P/FT6

For Use in Longer CCTV Run Lengths (typical run length up to 1500 feet)

Part #	Description
5002	RG6/U SOL BC 95% BC Braid CL2
5119	RG6/U SOL BC 95% BC Braid + 18/2 CL2
5302	RG6/U SOL BC 95% BC Braid CL2R/FT4
5352	RG6/U SOL BC 95% BC Braid CL2P/FT6
