

PERIMALITER® WALLPACK PVL3 POLYCARBONATE SERIES	Cat.#		 HUBBELL Outdoor Lighting
	Job	Type	
			Approvals

APPLICATIONS

- Ideally suited for security lighting applications as well as commercial and architectural exterior wall and area lighting for parking lots, office buildings, stores, shopping centers, fast food restaurants, banks, warehouses, and parking garages

SPECIFICATIONS

- One-piece polycarbonate front with high performance prismatic optics. Secures to housing gasket with twin Hubbell Gard® captive fasteners
- Die cast aluminum housing allows firm mounting over recessed junction boxes or on flat surfaces for 1/2" surface conduit. Casting dissipates ballast heat for long life. Top hub supplied for field installation of button photocontrol, ordered separately
- Specular aluminum reflector with kicker panels drive maximum lamp lumens to the refractor prisms. Vertical medium base lamp with these optics provide six-to-one spacing-to-mounting height ratio for maximum spacing or better uniformity. Vertical lamp increases both lamp life and output
- Available in 150W HPS and 175W PSMH
- Dark bronze powder paint finish standard on housing, front is painted inside the polycarbonate for lasting appearance

LISTINGS

- Listed to UL1598 for use in wet locations
