Energy Manager
Powerful Intuitive Energy Monitoring Software

Measure. Monitor. Manage.

Measure. Monitor. Manage.
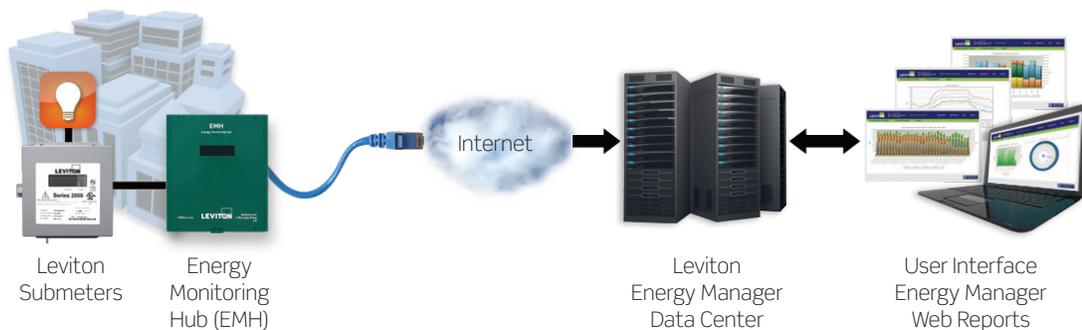

If You Don't Measure It, You Can't Manage It!

Save Energy, Reduce Costs, Be Sustainable

With a competitive global economy, soaring energy prices, increasing environmental issues and technology-based decision making, your profitability depends on the ability to analyze and control operating costs. Better energy management saves money and translates to an improved bottom line.

Decision makers everywhere are turning to Leviton Energy Manager to get the information they need to make smart energy choices. An advanced web based platform that provides real time data for your entire enterprise, Leviton Energy Manager gives you the most sophisticated tools to drive energy efficiencies, reduce operating costs and create more sustainable, environmentally sound facilities.

How Leviton Energy Manager Works

Simple, Effective, Turn Key Solution to Monitor Energy in Real Time

| Leviton Submeters | Energy Monitoring Hub (EMH) | Internet | Leviton Energy Manager Data Center | User Interface Energy Manager Web Reports |

- **Meters** record *real time* consumption data
- **Energy Monitoring Hub (EMH)** receives meter data and pushes it to Energy Manager data center
- **Data Center** stores, manages and reports data in *real time*
- **Energy Manager** software analyzes, formats and reports the data
- **User** logs into Energy Manager website and accesses data and reports

Leviton Energy Manager is Packed with Features

Leviton Energy Manager
- Illustrates information in real time
- Load profiling and benchmarking
- Works with existing meters
- Easy to install and use
- Measure & validate
- Scalable to unlimited number of meters
- Configurable on-site system
- Instant alarm notification system

Energy Monitoring Hub (EMH)
- Easy to install
- 8 pulse inputs, expandable to 30
- Accepts all meter types
- Compatible with Modbus metering
- Plug & Play - no programming needed
- Collects real time energy data in 15 minute intervals
- Automatically pushes data to Energy Manager data center

Companies using this **simple but powerful** management tool have seen **significant cost savings**, in some cases up to 20% or more.

Energy **monitoring** and **reporting** is the key to measuring and managing energy efficiency and cost.

Great Reporting in Just Three Clicks

• Simplified, easy to use with intuitive drilldown functionality
• Instant productivity for all users
• All reports are no more than three clicks away!
  • Real-time Report
  • Daily Report
  • Weekly Report
  • Weekly Profile Report
  • Monthly Report
  • Monthly Profile Report
  • Annual Report
  • Comparison Report
  • Carbon Emissions Report
  • Energy Center Report
  • Multiple Meter Report

All reports are no more than three clicks away!

1- Select an Item

2- Select a Report Type

3- Select a Time Period

Daily Report

Energy Center Report

Annual Report

Carbon Emissions Report

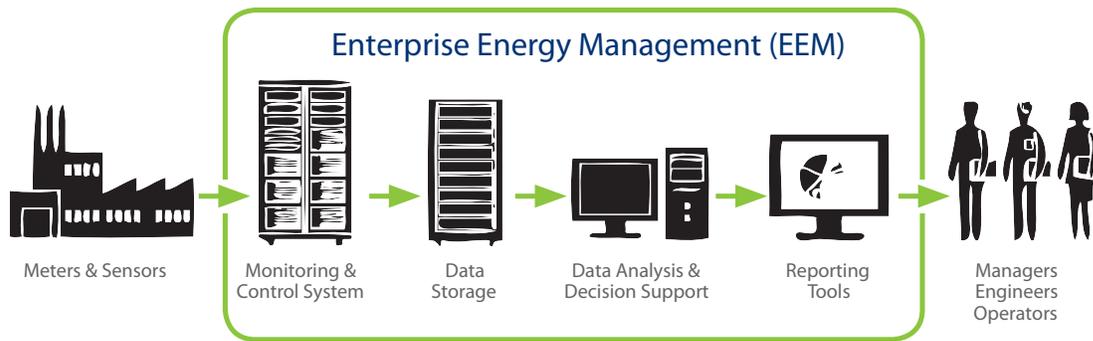

Comparison Report

Multiple Meter Analysis Report

Energy Management Systems Make Sense

Energy Management commonly known as Enterprise Energy Management (EEM) is the key to smart energy use and cost control. It consists of collecting, storing, analyzing and reporting data to give end users the information they need to make smart, effective energy decisions.

Enterprise Energy Management (EEM)

Meters & Sensors → Monitoring & Control System → Data Storage → Data Analysis & Decision Support → Reporting Tools → Managers Engineers Operators

Energy Manager is a Powerful Enterprise Energy Management (EEM)

- Identify cost saving measures that can lead to greater profitability
- Discover energy inefficiencies that may be difficult to see
- Establish baselines, budgets and allocation of energy use & costs within an enterprise
- Develop responsible environmental goals and conservation measures
- Measure and monitor the enterprise's carbon footprint
- Enhance LEED certification ratings with credits for measuring, monitoring and verification
- Adopt best-business practices for efficient energy use
- Track and trend consumption and site performance versus goals
- Highlight maintenance issues - identify sites and equipment that need immediate attention
- Trend, compare and validate utility bills
- Provide outstanding communication and support enabling your operations and management personnel to have the most advanced, intuitive energy management reporting at their fingertips in just 3 clicks!

Ordering Information

CAT. NO.	DESCRIPTION
A8812-000	Energy Monitoring Hub (EMH)
LEMS8-812	Energy Manager - Base License Program Package - includes (8) control points, (1) user account, and (1) Energy Monitoring Hub (EMH)
LEMSB-000	Energy Manager - Base License Program - includes (8) control points and (1) user account
LEMSP-000	Energy Manager - Additional Points License - includes (8) control points
LEMSU-000	Energy Manager - Additional User License
LEMSB-R00	Energy Manager - Base License Program Renewal
LEMSP-R00	Energy Manager - Additional Points License Renewal
LEMSU-R00	Energy Manager - Additional User License Renewal
