

## MOTION SENSOR DIMMER SWITCH, 700W INCANDESCENT/HALOGEN, WHITE

ADSM703HW2 | [adorne](#)

---

### FEATURES & BENEFITS

#### USAGE

- Perfect for garages, pantries and rooms where customized lighting solutions that allow for manual and automatic control options is desired.
- The adorne Motion Sensor Dimmer Switch uses motion-sensing technology to automatically turns lights on when you enter a room and off when you leave, but can also be adjusted to allow you to manually turn lights on if desired.
- The subtle built-in slider allows you to further dim the lights directly from the device.
- Use on its own to control a light from one location (single-pole operation), or pair with a second switch or dimmer to control a single light source from two locations (three-way operation).
- This Motion Sensor Dimmer Switch is meant for single fixtures and small lighting groups that do not exceed 700W (a total wattage of the number of bulbs multiplied by their respective wattages.)
- Pair with matching Motion Sensor Switch to create a uniform look throughout a room or your entire house.
- This item is also available in [magnesium](#).

#### GETTING STARTED

- Time to install: 15 minutes or less.
- Fits existing electrical box and does not require new wires for typical installation.
- Innovative snap-in system ensures easy installation.
- This item requires an adorne Wall Plate. [Shop now](#) to choose from dozens of finishes including a variety of luxurious metals, or order in your own custom finish.
