Insulated Fiberglass Boom Cleaners

The pre-wash wipe is a cleaner-saturated towel that cleans grease, tar, insects, creosote, salt spray, pine pitch, hydraulic fluid and road debris off fiberglass boom arms. The cleaner is water soluble, and washes off during subsequent water rinsing. Boom pre-wash does not adversely affect the gel coat on the boom. Available for use in a 72-count towelette canister or an individually saturated 2-foot-square towel.

The Boom Wash Concentrate is a specially formulated non-butyl water-based liquid that is mixed with water (1 part concentrate to 3-5 parts water) to make a mild water-based boom cleaner. Once rinsed and dried, the boom should be waxed with American Polywater Fiberglass Wax. The wax helps protect the boom's outer layer and ensures that water will bead up.

Fiberglass Wax & Buff Kit

The Fiberglass Wax and Buff Kit contains a lint-free wipe saturated with a fast-hazing fiberglass wax and a soft lint-free towel for buffing the wax to a shine. This kit is suitable for use on non-conductive fiberglass booms and hot sticks.

The Fiberglass Wax is also available in a 16-oz can, the perfect size for maintaining insulated boom trucks. This wax hazes quickly and buffs easily to a shine. The wax leaves a long-lasting surface barrier that protects the insulated fiberglass booms.
